

ORANGEHRM

THE WORLD'S FIRST

HR App Store

The rise in security threats from both employees inside the organization and anonymous hackers on the outside has led to the adoption of strict enterprise security measures.

The OrangeHRM User Login Management add-on allows you to configure authentication to prevent unauthorized access and security breaches, thus providing users with an option for password recovery.

 *Password recovery via the system can be done by users without admin interference.*

 *Configurable authentication settings.*

 *Enable captcha to prevent the use of automated hacking.*

User Login Management

Configure your user login settings as an administrator.

Configure Security Authentication Add-on

Authentication add-on Status: Enabled

☒ User can reset the password

☒ Enable CAPTCHA after 3 failed attempts.
